

Blu is going Green

In our effort to become more Environmentally Friendly we are asking that all customers and vendors please use double sided printing when submitting documents to Blu Pharmaceuticals.

We at Blu have implemented the use of 100% Recycled paper products and recycling bins for paper, magazines, plastic bottles and aluminum cans reducing the amount of waste being sent to the landfills.

Reduce/Reduction: to make something smaller or use less, resulting in a smaller amount of waste. "Source reduction" is reducing waste before you purchase it, or by purchasing products that are not wasteful in their packaging or use. A key part of waste "reduction" is "conservation" - using natural resources wisely, and using less than usual in order avoid waste.
