RE: Notification of Change for Tablet, Bottle and Label Size

Dear Customer and Authorized Trading Partner,

We would like to inform you of recent changes to **Citalopram Tablets, USP** distributed by Blu Pharmaceuticals. These minor changes affecting the physical appearance of the tablets and packaging were recently approved by FDA. There is no change to the strength or performance of the product. In addition to a smaller tablet size, this change also includes a smaller bottle and corresponding container label.

Per the Drug Supply Chain Security Act (DSCSA), Blu Pharmaceuticals is providing the following information related to all future shipments of Citalopram Tablets, USP:

NDC	Strength	Previous Tablet Size	New Tablet Size	New Bottle Size	New Label Size
24658-0140-10	10 mg	9 mm	6 mm	150 cc	1.5" x 4.5"
24658-0140-01				No change	
24658-0141-10	20 mg	9 mm	7 mm	225 cc	2.5" x 6"
24658-0141-01				No change	
24658-0141-30				No change	

This is a permanent change, effective July 23, 2015. The smaller tablets are identical in strength and performance to the larger tablets, which will no longer be produced. Please notify your downstream trading partners of this change.

We appreciate your attention to this matter. Please do not hesitate to contact us should you have questions or need further information.

Kind Regards,

Sharon Bigay-Luster
Vice-President
Blu Pharmaceuticals
